

## **AT Tidbits, January 2014**

(look for new ones each month)

### **Just for Fun**

[10 Top Time Saving Tips from David Pogue - a TED Talk video](#)

[Understanding Assitive Technology: Simply Said](#) What exactly do we mean by assistive technology? Watch this short video for a brief explanation.

### **AT Tidbits**

[Educational Technology and Mobile Learning](#)

This website is a wonderful resource. Categories of interest include Teacher Web Tools, Google Tools for Teachers, Educational iPad Apps (numerous subcategories here!), 21st Century Teaching Resources and Educational Social Networking. Lots of great “best of lists” and teacher guides on a variety of topics for every teacher looking to better integrate technology into his/her teaching. Probably targeted more to middle and high school educators but there is something on here for everyone!

[Access: YouTube](#)

an accessible version of YouTube allows people with learning challenges to use this mainstream technology independently. The simplified interface is more friendly to screen readers and switch users also.

[Transferring Video and Photos between two iPads](#) Need to share photos and videos between two different iPads? Here’s an easy solution.

[Top 100 Free Apps for Parents/Educators](#) This list is from Smart Apps for Kids and was recently updated.

[The Best 15 Twitter Hashtags for Educators](#) Twitter can be a great tool for professional development. Check out some of these hashtags to get you started.

Follow me on Twitter as I will try to post something new every week in the area of technology. @RosanneBurden
