If a covered person receives treatment from an out-of-network provider and the Plan Administrator determines that treatment was not provided by an in-network provider for one of the reasons specified below, the claim may be adjusted to yield in-network-level benefits: <ol style="list-style-type: none"> There is not access to a Qualified in-network provider located within a Reasonable Distance from the covered person's residence. It was not reasonable for the covered person to seek care from an in-network provider because of a medical emergency. A covered person traveled to a place where he or she could not reasonably be expected to know the location of the nearest in-network provider (if available). A covered person receives eligible treatment at an in-network facility and he or she had no choice over the physician that provides treatment. The term "Qualified" as used above means having the skills and equipment needed to adequately treat the covered person's condition. The term "Reasonable Distance" as used above approximates a 50-mile radius.		Coordination with Other Coverage for Injuries Arising out of Automobile Accidents In the event that a covered person is injured in an accident involving an automobile, this Plan shall be the primary plan for purposes of paying benefits and the covered person's automobile insurance shall pay as secondary. Coordination with Other Coverage for Injuries Arising out of Motorcycle Accidents The following special coordination rule applies regarding motorcycle accidents. If a covered person is injured in an accident that involves a motor vehicle, claims will be processed in accordance with the Plan's position on motor vehicle accidents. IF A COVERED PERSON IS OPERATING A MOTORCYCLE AND IS INJURED IN AN ACCIDENT THAT DOES NOT INVOLVE A MOTOR VEHICLE, THIS PLAN WILL EXCLUDE COVERAGE FOR THE FIRST \$20,000 IN ELIGIBLE CHARGES OR, IF GREATER, THE AMOUNT OF HEALTH BENEFITS PAYABLE BY THE MOTORCYCLE INSURANCE POLICY. It is the responsibility of any covered person who operates a motorcycle to ensure that he or she is covered under a motorcycle insurance policy that will pay at least \$20,000 in health benefits for him or her per accident. This requirement applies even if the covered person is not legally required to have such health benefit coverage. If the covered person fails to maintain \$20,000 of coverage through a motorcycle insurance policy, the difference between the policy's maximum payout per accident (if any) and \$20,000 will be the covered person's responsibility. A covered person who is riding a motorcycle as a passenger and is injured in an accident that does not involve a motor vehicle will not be subject to this provision and will not have his or her otherwise eligible claims excluded from Plan coverage as described above.
